

Dear Families,

Hello! My name is Mrs. Tracy Capozzi, and I was recently hired as Thomaston Public Schools speech-language pathologist. My first day with Thomaston Schools was January 3, 2017. It has been a great pleasure getting to know such amazing children!

Before my work here in Thomaston, I have worked as a speech pathologist in several different settings. I was born and raised in Western Massachusetts, in the Springfield area. I earned my Bachelor of Science degree from College of Our Lady of the Elms, where I studied Communication Sciences and Disorders. Immediately following The Elms, I became a full-time graduate student at Worcester State University, where I studied Speech-Language Pathology. After passing the national certification test and earning my Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP), I began working in public schools full-time and for a Birth to Three agency, part-time. I worked in the Massachusetts public schools with children who had a wide range of abilities in grades Pre-K through high school. Having accepted a full-time position in Plainville Community Schools, I moved to Connecticut in 2007. I worked full-time in Plainville Community Schools, grades Pre K-12, for seven years. My experience also includes working for a therapeutic day school in CT with children in grades K-12 whose primary exceptionalities included emotional disturbance and autism spectrum disorder, in private practice, and for an autism specific early intervention agency.

I am very excited to be working for Thomaston Public Schools! I look forward to meeting and working with all of you. I may be reached by calling your child's school, or by email at [tcapozzi@thomastonschools.org](mailto:tcapozzi@thomastonschools.org). I work in the district 3 full days per week, Tuesdays-Thursdays, and travel between THS and TCS. Please feel free to contact me at any time. I welcome the opportunity to speak with you about your child!

Sincerely,

Tracy M. Langlois Capozzi, M.S.CCC-SLP  
Nationally Certified/Licensed  
Speech-Language Pathologist
